Rim sizes

16" 17" 18"

The new Taigo:

Sporty crossover body style with coupé-like SUV silhouette.

Unique front and newly designed rear.

Third MQB model after Polo and T-Cross.

Fully digital and always on: Latest-generation Digital Cockpit and online Infotainment systems as standard.

Partly automated driving: IQ.DRIVE Travel Assist provides support when braking, steering and accelerating.

Premium-class features: IQ.LIGHT LED matrix headlights with LED light strip in the grille and light band at the rear.

Large luggage compartment and lots of headroom in the passenger compartment.

Sustainable TSI drives: efficient 1.0 and 1.5-litre petrol engines available for market launch.

Taigo, Life, Style and R-Line specification packages for the greatest possible individuality.

Taigo

New emotional lifestyle model

Emotional lifestyle model

With its unique SUV coupé body, individual design highlights (e.g. Roof Pack, Black Style Package, LED light strip) and wide range of decorative trims, colours and equipment options, the new Taigo sets the benchmark for SUVs in the small car segment. In doing so, it completes Volkswagen's current product portfolio in this vehicle class and taps into additional customer groups.

High degree of everyday usability and comfort

With its unique SUV coupé body, individual design highlights (e.g. Roof Pack, Black Style Package, LED light strip) and wide range of decorative trims, colours and equipment options, the new Taigo sets the benchmark for SUVs in the small car segment. In doing so, it completes Volkswagen's current product portfolio in this vehicle class and taps into additional customer groups.

Fully digital and "always on"

The new Taigo comes with numerous digital features, such as Wireless Charging and App Connect, the launch of the MIB3.1 Infotainment system and a digital cockpit, as well as functions on demand and We services.

Simplified range of versions

The new Taigo is offered with a new range of versions featuring its own distinctive R-Line with virtually no overlap between options and packages.

Technologies from the higher classes

Thanks to the MQB, the new Taigo sets the benchmark when it comes to safety and driving comfort: IQ.DRIVE Travel Assist with Lane Assist and pACC, Front Assist, Side Assist and IQ.LIGHT LED matrix headlights with Dynamic Light Assist are normally only associated with higher vehicle classes.
